ALEXIS DANIEL RODRÍGUEZ ZAMBRANO

Murcia, Spain · alexisrz.sci@gmail.com · linkedin.com/in/alexisdanielrodriguez · alexisrzsci.github.io/portfolio

PROFILE

Final-year Environmental Sciences student combining GIS and spatial analysis with field ecology, with research experience in Spain and the United States and a co-authored conference poster. Focused on using spatial data to address environmental problems such as biodiversity loss, habitat fragmentation and land-use change; applying to the Copernicus Master in Digital Earth.

EDUCATION

BSc Environmental Sciences *2023 – 2027*
Universidad de Murcia, Faculty of Biology · GPA 8.23/10

Coursework GIS I · GIS II · Population and Community Ecology · Environmental Impact Assessment

Current courses Environmental Remote Sensing · Climate Change: Adaptation and Mitigation

Exchange semester — Pitzer College *Spring 2026*
The Claremont Colleges, California, USA · ISEP programme

Coursework Marine Ecology · Insect Community Ecology · Tropical Ecology

RESEARCH EXPERIENCE

Internal Student — Ecology and Hydrology *2026 – present*
Dept. of Ecology and Hydrology, Universidad de Murcia · Collaboration Grant (Beca de Colaboración) awarded for 2026–27

Research Assistant — Robert J. Bernard Field Station *2026*
Pomona College, Claremont, California

- Processed, pinned and inventoried pitfall-trap beetle specimens for a ten-year assemblage study (2013–14 vs. 2023–24, 32 sites)
- Family-level identification from morphological characters; consistent records across both decades
- Co-authored the resulting poster, presented at the SCAS 2026 Annual Meeting

Internal Student — Zoology *Sept 2024 – June 2026*
Dept. of Zoology and Physical Anthropology, Universidad de Murcia

- Field sampling and processing of ecological data over two academic years
- Quantitative image analysis with ImageJ

CONFERENCE POSTER

Leonard SB, Gutierrez Muniz M, **Rodriguez Zambrano A**, et al. (2026). *10 Year Assessment of Changes in Beetle Assemblages at the Robert J. Bernard Field Station*. Southern California Academy of Sciences Annual Meeting, Chapman University, Orange, CA, 18 April 2026.

SELECTED PROJECTS

Renaturalising the Río Segura *2025*
Climathon Murcia (CETENMA)

- Multi-criteria distance analysis in QGIS to identify river stretches suitable for renaturalisation

Food Sovereignty in Ecuador (StoryMap) *2026*
Pitzer College · team of four

- Researched and wrote the chapters *Impacts of Colonization & Resource Extraction* and *Indigenous Food Systems Today*

Microplastics and Hermit Crab Behaviour *2026*
Scripps College

- Responsible for the results of a 3-treatment, 21-individual experiment: figures and statistical tests in R

SKILLS

GIS
QGIS, GRASS GIS, ArcGIS (basic), ArcGIS StoryMaps

Spatial methods
Multi-criteria analysis (AHP, TOPSIS), raster and cost-distance modelling, spatial SQL

Data
Statistics with R, ImageJ, Python (basic)

Field & lab
Standardised transects, species identification, specimen processing and pinning

Languages
Spanish (native) · English B2 (Cambridge FCE; EF SET 82/100) · Italian (basic)

VOLUNTEERING & AWARDS

Butterfly Monitoring (BMS) *2025 – now*
Universidad de Murcia · European BMS

- Standardised georeferenced transects and species identification
- **Community Service Award** (CEUM, March 2026) as one of the 10 most active volunteers

Science outreach *2024, 2025*
Semana de la Ciencia y la Tecnología · Asociación Iberozoa & UMU

- Environmental education on herpetofauna and geological heritage

CERTIFICATES & TRAINING

- EUniWell Intensive Programme (3 ECTS), University of Florence
- II BAS Workshop – Biology, Water and Sustainability (26.25 h)
- CONAMA 2024 — National Environment Congress, Madrid
- ECODAY: Circula y Emprende 2025 (CETENMA)
- Environmental Education on the Río Mula (16 h)
