ALEXIS DANIEL RODRÍGUEZ ZAMBRANO

Murcia, Spain · alexisrz.sci@gmail.com · linkedin.com/in/alexisdanielrodriguez · alexisrzsci.github.io/portfolio

PROFILE

Final-year Environmental Sciences student at the Universidad de Murcia combining Geographic Information Systems (QGIS, GRASS GIS, ArcGIS) with ecological research. Experience in field sampling, taxonomic identification and data analysis gained in research projects in Spain and the United States (Pomona College, Pitzer College). I want to apply GIS and ecology to environmental problems such as biodiversity monitoring, habitat fragmentation and land-use change, and I am applying to the Copernicus Master in Digital Earth.

EDUCATION

Universidad de Murcia — BSc Environmental Sciences
· *2023 – 2027*
Faculty of Biology · GPA 8.23/10 · Courses: Population and Community Ecology, Environmental Impact Assessment, GIS

Pitzer College, The Claremont Colleges (California, USA)
· *Spring 2026*
Exchange programme (ISEP) · Courses: Marine Ecology, Insect Community Ecology, Tropical Ecology

RESEARCH EXPERIENCE

Internal Student — Dept. of Ecology and Hydrology
· *2026 – present*
Universidad de Murcia · Collaboration Grant (Beca de Colaboración) awarded for 2026–27

Research Assistant — Robert J. Bernard Field Station · *2026*
Pomona College, Claremont, California

- Taxonomic identification and data analysis for a ten-year study of beetle assemblages
- Creation and maintenance of the specimen inventory; entomological pinning
- Poster co-author, SCAS Annual Meeting (see Communications)

Internal Student — Dept. of Zoology and Physical Anthropology
· *Sept 2024 – June 2026*
Universidad de Murcia

- Field sampling and processing of ecological data
- Quantitative image analysis (ImageJ)

GIS & RESEARCH PROJECTS

Renaturalising the Río Segura · *2025*
Climathon Murcia (CETENMA)

- Multi-criteria distance analysis in QGIS to locate river stretches suitable for renaturalisation

Spatial analysis coursework (GIS I) · *Universidad de Murcia*

- Land suitability with AHP & TOPSIS in R, least-cost routing, forest fragmentation and connectivity, spatial SQL (QGIS, GRASS GIS)

Food Sovereignty in Ecuador — ArcGIS StoryMap · *2026*
Pitzer College · team of four

- Researched and wrote the chapters *Impacts of Colonization & Resource Extraction* and *Indigenous Food Systems Today*

Microplastic Effects on Hermit Crab Behaviour · *2026*
Scripps College

- Marine ecology experiment; responsible for results, figures and statistical analysis in R

SKILLS

GIS & spatial analysis
QGIS, GRASS GIS, ArcGIS (basic), ArcGIS StoryMaps, multi-criteria analysis, raster modelling

Data
Statistics with R, spatial SQL, ImageJ, Python (basic)

Field & lab
Standardised transects, species identification, specimen processing and pinning

Languages
Spanish (native) · English B2 (Cambridge FCE; EF SET 82/100) · Italian (basic)

COMMUNICATIONS

Leonard SB, Gutierrez Muniz M, **Rodriguez Zambrano A**, et al. (2026). *10 Year Assessment of Changes in Beetle Assemblages at the Robert J. Bernard Field Station*. Poster, Southern California Academy of Sciences Annual Meeting, Chapman University, 18 April 2026.

VOLUNTEERING & OUTREACH

Butterfly Monitoring Scheme (BMS)
· *2025 – present*
Universidad de Murcia · European BMS

- Standardised georeferenced transects and species identification

Science outreach (SeCyT 2024 & 2025)
Asociación Iberozoa & UMU

- Environmental education on herpetofauna and geological heritage

AWARDS

Social Work Award — II Gala de Primavera (CEUM), Universidad de Murcia, March 2026. Top 10 most active volunteers of the UMU Butterfly Monitoring Scheme.

CERTIFICATES & PROGRAMMES

- EUniWell Intensive Programme (3 ECTS), University of Florence
- II BAS Workshop – Biology, Water and Sustainability (26.25 h)
- CONAMA 2024 — National Environment Congress, Madrid
- ECODAY: Circula y Emprende 2025 (CETENMA)
- Environmental Education on the Río Mula (16 h)
